PROFILE

Experienced Frontend Engineer proficient in TypeScript, JavaScript, ReactJS, Next.js, and Tailwind CSS. Passionate about user-centric web development, optimizing performance, and delivering scalable and maintainable software solutions for exceptional user experiences.

WORK EXPERIENCE

Freelance Web Developer (Self-employed)

Flai-r Agency   Nov. 2022 - Present
Lagos, Nigeria

- Collaborate closely with clients to comprehend their business requirements, translating them into functional and visually appealing website designs.
- Successfully manage multiple projects simultaneously, ensuring on-time delivery and exceeding client expectations.
- Maintain continuous communication and collaboration with clients, providing updates, gathering feedback, and incorporating necessary revisions to meet their needs.

Frontend Engineer

Garmatsch Software   Dec. 2020 - Oct 2022
Frankfurt am Main, Hesse, Germany

- Played a key role in optimizing the performance of the frontend architecture using TypeScript, React JS, Storybook, CSS-in-JS, and GraphQL, resulting in 25% faster load times and improved user experience.
- Played a vital role in developing an internal reusable component library, significantly enhancing code reusability and maintaining consistency across the project.
- Participated in code reviews, providing valuable feedback and suggestions for code quality and best practices.
- Actively contributed to improving team collaboration and productivity through effective communication and knowledge sharing during pair-programming sessions.

Frontend Engineer (Contract)

Mcmakler GmBH   June 2021 - Jan 2022
Berlin, Germany

- Efficiently collaborated with Frontend teams to develop a map-data visualization program for real estate data search with server-side rendering. Demonstrated adaptability and delivered results within a short contract period.
- Implemented MapBox GL JS with customizations to visualize data in grids and lists, resulting in a robust and visually appealing map-data visualization feature. This enhancement significantly improved user engagement by 30%.
- Collaborated seamlessly with back-end teams to ensure smooth integration of both frontend and backend functionalities.
- Performed rigorous testing and debugging to ensure a smooth user experience on diverse devices and browsers.

P R O J E C T S

Flai-r Blog
Description: A personal blogging application with real-time capabilities. It features user reviews and comment system with real-time communication.
- Successfully implemented real-time user interactions using the Appwrite IO database service.
- Successfully built a personal content management system for performing CRUD updates on blog posts.

Link: https://blog-cms-bay.vercel.app/

Shoppy Dashboard
Description: A dynamic and feature-rich dashboard template using React.js. The template includes a calendar with event scheduling, a Kanban task board for efficient project management, a versatile rich text editor, intuitive color pickers, and interactive charts for data visualization.

Technologies Used: React.js, JavaScript, HTML, CSS, Chart.js, Draft.js, and various other libraries.

- Integrated a responsive calendar to manage events and deadlines effectively.
- Implemented a Kanban task board with drag-and-drop functionality to enhance project organization and collaboration.
- Developed a customizable rich text editor, enabling users to create formatted content effortlessly.
- Integrated interactive charts to visualize data trends and patterns.

Frontend developer (Contract)

DigitalSherlock.eu   Jan. 2021 - June. 2021
Berlin, Germany

- Played a pivotal role in the design and development of a web-based service, enabling users to efficiently search and manage their personal data across diverse platforms.
- Integrated a digital identity verification system to authenticate user identities and prevent fraudulent activities using WebID.
- Implemented the Stripe payment gateway to facilitate secure and seamless online transactions.

Fullstack web developer

Kodegenic Technologies   Jul. 2019 - Nov. 2020
Uyo, Nigeria

- Collaborated with cross-functional teams to design, develop, and deploy web applications. Demonstrated adaptability and delivered results within deliverable timeframes.
- Implemented front-end interfaces using HTML, CSS, and JavaScript frameworks.
- Skillfully integrated RESTful APIs, ensuring seamless and efficient communication between the front-end and back-end components of the application.
- Conducted performance optimization and testing to ensure optimal functionality and user experience.

Intern Fullstack web developer

Kodegenic Technologies   Nov. 2018 - June. 2019
Uyo, Nigeria

- Aided senior developers in both front-end and back-end web development assignments.
- Engaged in close collaboration with fellow team members to identify, debug, and effectively troubleshoot issues.
- Performed comprehensive research on emerging web development technologies and delivered insightful presentations of the findings to the team.
- Succeeded in executing a project entailing the implementation of a responsive user interface for a client website.
